

# Integration Technical Conference

April 29 – May 2, 2019 / Grapevine, TX

## Access to Hands-on Labs

One week ago today, we concluded the inaugural, *and sold out*, [Integration Technical Conference](#), at the Great Wolf Lodge in Grapevine, TX. The event included 70 sessions and 15 hands-on labs, covering the entire IBM Integration portfolio. If you missed the kick-off, check out to the [Live Stream recording](#) on YouTube.

Many attendees expressed an interest in gaining access to the hands-on labs after the event. Whether you were able to join us this year or not, we invite you to access the labs already available via our [IBM Digital Technical Engagement](#) (IBM DTE) portal - scroll down to the **Integration and Development** section.

Following is a list of labs and demos available on the [IBM DTE site](#) today – feel free to check back regularly for new content:

- [Cloud Integration Platform](#)
- [IBM API Connect](#)
- [IBM Event Streams](#)
- [IBM App Connect](#)
- [MQ on Cloud](#)
- [IBM Aspera on Cloud](#)
- [IBM DataPower Gateway](#)

If the lab or product in which you're interested is not available through DTE today, or if you're interested in an MQ or DataPower loaner appliance for evaluation, please contact your IBM representative or email Maria Menendez ([mmenende@us.ibm.com](mailto:mmenende@us.ibm.com)) for assistance.

In addition, feel free to access tutorials and software trials on [IBM Developer/Integration](#).

Hope to see you all at Integration Tech Con 2020!
